# HWATCH L1/W1

Welcome to use HWATCH L1/W1 smart watch.

HWATCH L1/W1 is the first fashionable and smart watch for female made by DXY Technology. Like other models under HWATCH L1/W1 series, it is a trans-boundary product combining traditional watch process and technical intelligence.

HWATCH L1/W1 has soft curve, reliable material and stable performance. It is L1 embedded with VS-grade real diamond, W1 embedded with colorful crystal, which makes HWATCH L1/W1 shine. Like you, it looks so beautiful, tender and strong.

The pointer on dial plate follows the rotation of Ronda quartz movement. HWATCH L1/W1 is quietly recording and analyzing your exercise and sleep. It can also conduct UV inspection if needed. By this, you know well about your daily routine.

To select HWATCH L1/W1 means the selection of long-term high-quality and smart watch from HWatch as well as the selection of H health mobile phone applications under the cooperation of many professional institutions. While monitoring daily parameters, daily health diary can be formed, making health a part of your fashion.

From now on, you can open up a new life chapter which is healthy, beautiful and fashionable with HWATCH L1/W1.
